DRINKS

BAR TAB

When providing the beverages for an event, a bar tab is the best way to go. This allows you to select the drinks you would like to offer your guests whilst setting a bar tab limit. A staff member will update you prior to reaching your limit to allow you to add to the bar tab or reserve the remainder of the bar tab for your key guests. Wristbands are provided with bar tabs to ensure that only guests at your function have access.

CASH BAR

Having a cash bar is ideal for your event if you plan on only providing food for your guests. This allows your guests to order and pay for their own drinks.

DRINK ON ARRIVAL

Drink on arrival is a great way to kick start your party. It's done with drink tokens that you can hand to your guests to redeem at the bar.
